HAS WILD PLAN TO SMASH TOGO

Rojestvensky Ready to Sacrifice Enquist's Squadron in Battle.

WILL THEN DASH FOR VLADIVOSTOK

Reinforced By Three Big Cruisers, He Will Return to Open Fight.

London, April 11.—The startling theory is advanced by one of London's best known naval experts that Rojestvensky is prepared to sacrifice Vice Admiral Enquist's division of his squadron as the only effective way of smashing Togo. This, in the opinion of the expert, is the explanation of the disappearance of the Russian commander and the Kniaz Suvaroff, Borrodina, Alexander 11, and Orel, his four best battleships.

The following, it is believed, is Rojestventsky's strategy:

To allow Enquist with his three battleships, twelve cruisers and seven destroyers, to give battle to Togo.

To run for Vladivostok with his 4 battleships and attendant cruisers, and by the co-operation of the three great cruisers, Grombo, Rossia and Bogatyr, defeat Kamimura's blockading squadron; and then,

To rush back and engage Togo's weakened fleet.

Rojestvensky has already shown himself a magnificent naval strategist and the British naval authorities are quite willing to admit that he is quite capable of attempting the heroic coup here indicated.

At the same time it is certain that the present invisibility of Togo and his ability to deal suddenly and effectively with the Enquist division in ample time to hunt down and engage Rojestvensky are factors that must be counted with, and that may upset completely the Rojestvensky tactics.

BIG OCEAN LINERS GRAZE AMONG ICEBERGS IN FOG

Sea Horror Averted By Narrow Margin of Less Than Fifty Feet.

New York, April 11.—A tragedy of the sea, which would have been almost without parallel, was averted by the narrow margin of a few feet when the Atlantic Transport Line steamer Minneapolis, bound for this port crossed the bows of a huge passenger steamship, undoubtedly the White Star liner Teutonic, with which the Minneapolis had been talking for hours by wireless.

The two vessels were feeling their way carefully through the fog-clouded seas off the Banks on Friday when they sighted each other less than a hundred feet apart. The few seconds immediately following were filled with more terror than the officers of the Minneapolis care to remember. When the vessel came into New York harbor yesterday morning the officers still showed the strain of a voyage that was a continuous threading through hundreds of icebergs in one of the heaviest fogs of years.

The strangest feature of the narrowly averted collision was the fact that the Minneapolis and the Teutonic had been in communication with each other by wireless for hours.

The Minneapolis had been dodging icebergs all day Friday and the fact that she was able to avert a collision with the Teutonic was due wholly to the fact that she was under half speed and had doubled her lookouts. An hour before sighting the Teutonic she had scraped a huge berg that towered impressively over her decks and her officers were in a state of nervous dread as they crept furtively through the fog.

It was shortly after 2 p. m. that a cry rang out in chorus from several of the lookouts. Through the curtain of fog had swept the huge stem of the black hulled, east-bound ship, and out upon the thick air roared the raucous blare of the whistles, carrying the word of the road law of the sea. In the engine rooms of each clanged the gongs crying for full speed astern and on the bridge men flung themselves upon the wheel of the Minneapolis, throwing her far out of her course. Like the shadow of death itself the great black bulk of the other ship swung past in the fog and disappeared toward the east.

Less than fifty feet separated the two groups of officers of the passing ships as they gripped the bridge rails and waited.

Captain A. W. Best, a passenger and a man who had followed the sea himself, was one of those who witnessed the passing of the black stranger, and no man aboard the Minneapolis realized more clearly the danger than he. The news finally got about through the ship, but not until long after the danger had passed.

The next day the superstitions of the sailors were appealed to by the arrival on the boat of a strange bird of great size, believed to be either an eagle or a hawk which had bown out to sea and lost its bearing. All day long it had hovered over the vessel, unwilling to approach too near until utter exhaustion drove it to alight upon one of the small boats. Then it crept under the canvas cover and dropped into a deep sleep. It was purchased later from the quartermaster for $5.

RUMOR OF BIG BATTLE

Hong Kong Hears That Togo Has Lost Five Ships But Report is Not Well Authenticated

Japanese Advices Say That Togo Has Been Reinforced By the Northern Blockading Squadron—Russians at St. Petersburg Claim to Know Little of the Movements of Their Fleet—No Official Advices From Singapore By the Admiralty.

Chicago, April 11.—A special to the Chicago Daily News from Hong Kong says:

It is reported here that two sections of the rival fleets clashed near Singapore this morning and that Togo lost five vessels. The rumor is not given much credence.

Victoria, B. C., April 10.—Advices received by the steamship Athenian say that the Japanese fleets with a base at the Parcardores, off Formosa, whence Togo was moving to give battle to Rojestvensky's fleet, was reinforced by a squad composed of vessels withdrawn from the blockade squadron which watched the northern approaches to Vladivostok until the middle of March.

Vice Admiral Kataoka was given command of this fleet, called the third squadron. Blockade work is now entrusted to old coast defense vessels and converted transports.

Manilla, April 11.—The German steamer Struve, from Saigon, reports that on Sunday she sighted two Japanese cruisers in the China sea headed for Singapore.

GARFIELD EXPECTS TO SHOW NO MERCY

Commissioner Directed By President to Probe Kansas Oil Affair and Beef Trust Very Much in Earnest.

Topeka, Kan., April 11.—Commissionerf Garfield said that he had been working on the oil situation for several months. "The early agitation in Kansas," he said, "interested me as it is a repitition of what we went through in Ohio several years ago. The relation of the total production of crude oil becomes naturally an important matter in this investigation. The Standard Oil company seems to have raised the cry of overproduction as a defense against the charges and this claim is one of the things that we shall go at carefully. It is not our intention to take anything for granted. We expect to make an investigation of the freight and other transportation questions in connection with our inquiry regarding the price of crude oil. In short we shall secure every available fact regarding the oil industry not only in Kansas, but the country over.

"For years past, the government has been gathering statistical information which will be of great value if properly applied to conditions. The difficulty has been in making proper applications and arriving at conclusions. The matter of using these statistics and other facts to the best advantage is something that President Roosevelt and his advisers are studying carefully and their conclusions will have great bearing on the whole corporation question.

"The fact that the profit resulting from a price fixed through the agreement, is small is not material. The mere fixing of any price or the attempt to fix any price through agreement is in violation of the anti-trust law. In the beef trust inquiry the Martin resolution directed the department to make an investigation regarding the profits of packers. This was only a part of the ground covered by the investigation and the proof, or lack of proof, has no relation to a charge of violating the law. The same thing could be true in the case of the Standard Oil company.

Mr. Garfield intends visiting the oil fields of Oklahoma, Texas, Colorado and California, before he makes his report.

STABBED BY ITALIANS

Lake Shore Trainmen Attacked With Knives in Elyria Yards.

Elyria, Ohio, April 11.—Three Italians whose wives were arrested last week for stealing coal on the Lake Shore railroad sought revenge this morning by attacking a freight train crew with axes and knives.

Robert Munts, conductor, was stabbed in the face and two other trainmen were severely beaten. One Italian was arrested the others escaping.

The arrested man fought the officers and was beaten almost into insensibility. The trainmen are seriously hurt.

FATTER

She Grew Day By Day Until Friends Didn't Know Her, and the Western Belle Shot Herself To Death,

Los Angeles, Cal., April 11.—Because she was growing so fat that her friends would meet and fail to recognize her, Mrs. Dora Jackson, young and handsome and formerly one of the belles of the city, blew her brains out today with a revolver. Her case is one of the strangest ever known to local medical science.

Always healthy and strong and with a normal weight of 170 pounds, Mrs. Jackson became ill six months ago and had to submit to a surgical operation.

Then her woes of obesity commenced. She began gaining at the rate of five pounds a week and continued until she tipped the scales at nearly 300 pounds. Remedy after remedy was tried without avail.

Today was her 33d birthday anniversary. While sitting in a rocking chair, talking with her husband and friends, Mrs. Jackson suddenly produced a revolver, placed the muzzle to her temple and pulled the trigger.

$100,000 FIRE AT CLEVELAND

CLEVELAND, OHIO, APRIL 11.—THE ENTIRE PLANT OF THE C. O. BARTLETT AND SNOW COMPANY, MILL MACHINERY MANUFACTURERS, FRENCH AND FALL STREETS, IN THIS CITY, WAS DESTROYED BY FIRE LAST NIGHT. THE MEMBERS OF THE FIRM STATE THE LOSS TO BE FULLY $100,000, WITH PARTIAL INSURANCE.

FIVE KILLED IN WRECK ON ATCHISON

Kinsley, Kan., April 11.—Five persons, it is believed, were killed and many others injured last night in a rearend collision of the Chicago express and the return train of the California limited on the Atchison, Topeka & Santa Fe railway. Both trains were eastbound.

The Chicago express was standing at Kinsely station when the other train crashed into it. The locomotive of the second train plowed into and demolished the rear Pullman of the Chicago express. The cars in front were damaged and the locomotive and part of the cars of the second train wer wrecked.

Many passengers and trainmen were buried in the debris. Flames from the demolished locomotive set fire to the wreck, handicapping the efforts of the rescuers. The fire department were unable for a long time to control the flames and the exact number of the dead and injured is not known. The loud moans of the injured indicated that there were many persons imprisoned.

The engineer and the fireman of the second train have not been found, and it is believed that they have perished. Both train crews disclaim responsibility for the wreck. The Chicago express crew said they had the right of way and had no orders to make room for the other train.

SMALLPOX AT CELINA.

Celina, April 11.—Several cases of smallpox developed here today and great excitment prevails tonight. The parties who have contracted the disease have been exposed to the citizens generally.

The board of health has taken every precaution necessary and is bending every effort to stop the further spread of the disease. Many houses have been quarantined here today but more will likely follow tomorrow should any more symptoms prevail.

SOUTHERN OHIO STORM-SWEPT

Two Churches Wrecked at Chillicothe. Steeple Falls Upon Another Building Jeopardizing Life of Thirty Children.

Columbus, April 11.—A destructive storm swept over southern and southeastern Ohio yesterday afternoon. At Chillicothe the German Methodist church was unroofed and a part of the steeple of St. Peter's church was blown away.

Thirty children were rehearsing a play at Memorial hall, when the steeple of the Third street Presbyterian church and a pile of bricks crashed through the roof. None were seriously hurt, but many were bruised by flying bricks.

St. Joseph's church, near Somerset, in Berry county, was partly unroofed, and two pinacles from the tower fell through the remaining portion of the roof. The damage was estimated at several thousand dollars.

In Somerset the house of Albert Love was unroofed, and the family had a narrow escape.

BATTLES BOUND OVER.

Findlay, April 11.—Dolphos Battles the glassworker who shot and wounded Patsey Finnigan, whom he found alone with his wife Saturday night, was bound over to the grand jury in the summ of $500 on the charge of shooting with intent to kill. Finnigan pleaded guilty and was fined $15 and costs for disorderly conduct.

ORATORICAL CONTEST.

Kenion, April 11.—An oratorical contest will be held here next Friday to determine upon a representative to the northwestern Ohio contest at Findlay.

URIC ACID GRAVEL

IS CAUSED BY THE KIDNEYS BEING UNABLE TO CARRY THE POISONOUS WASTE MATTERS OUT OF THE BLOOD.

The urine of persons suffering from uric acid or gravel is generally scanty, and after it has stood a while a reddish sediment like brick dust forms in it. In advanced stages the uric acid sometimes appears as fine sand, or [illegible] crystals.

Those who pass gravel in any considerable quantity are usually troubled with inflammation of the kidneys, bladder and urinary organs, sour stomach, indigestion, heartburn, gout and rheumatism.

CURED BY WARNER'S SAFE CURE

"I have used Safe Cure for chills caused by uric acid poison in my system and I have been perfectly cured. It has done for me what I have never known any other medicine to do. It cures people in the South who suffer much from malaria, which always affects the kidneys. If all the doctors would prescribe Safe Cure instead of quinine for cases of malaria there would be less bad after effects, as quinine does not remove the disease germs from the system like Safe Cure. I take 'Safe Pills' when I need a gentle laxative."—Mrs. M. E. DEAN, Treas. Lotus Club, Chattanooga, Tenn.

THIS TEST WILL TELL:

Put some urine in a glass or bottle. After it has stood 24 hours, if it is cloudy, or contains a reddish-brown sediment, or if particles float about in it your kidneys are diseased and unable to do their work, and if not attended to at once Bright's Disease, diabetes, rheumatism, gout, uric acid, inflammation of the bladder, gall-stones or urinary troubles will develop and prove fatal in a short time.

Safe Cure is the only absolutely safe and certain cure for all these forms of kidney, liver and bladder diseases. It is purely vegetable, free from harmful drugs found in many so-called kidney cures, contains no sediment and is pleasant to take.

For sale at all drug stores, or direct, 50c and $1.00 a bottle.

ANALYSIS FREE.

If after making this test you have any doubt as to the development of the disease in your system, send a sample of your urine to the Medical Department, Warner Safe Cure Co., Rochester, N. Y., and our doctors will analyze it and send you a report, with advice and medical booklet, free.

REFUSE SUBSTITUTES AND IMITATIONS

They are worthless and very often exceedingly dangerous. Ask for Warner's Safe Cure; it will cure you.

WARNER'S SAFE PILLS move the bowels gently and aid a speedy cure.

AMUSEMENTS

The work "behind the scenes" with an orchestra the size of the Cincinnati Symphony Orchestra, which is to play here tonight at the Faurot, has always been a matter of great interest to the uninitiated, and it is indeed little short of marvelous, when one stops to consider in what an incredibly short time a big orchestra of this kind can jump from one city to another, sometimes in fact making two cities in one day, and be ready for the concert on schedule time. It is said to be possible for an orchestra to reach a city at seven o'clock in the evening, without having had dinner, and be ready, dresssuits, dinner and all, to begin the concert at 8:15. No after-dinner speeches and cigars on these evenings, of course, but the musicians would be on hand ready for the first beat of the conductor's baton.

Don't let the children suffer. If they are fretful, peevish and cross give them Hollister's Rocy Mountain Tea. The best baby tonic known. Strength and health follow its use. 35 cents.

VOICE

Was Restored By Faith, According to the Cleveland Girl, Who Says She Was Treated By Christian Scientists.

Cleveland, Ohio, April 11.—Seven months ago Jessamine Pike could not sing a note. She could not speak above a whisper. Her voice was gone.

After months of struggling against a disease of her throat her voice apparently has regained its former beauty and strength. "Christian Science did it," said Miss Park.

Three years ago Miss Pike began to be troubled with her throat. Gradually the affection grew worse. She found it more and more difficult to get results from her voice, a voice which had won much praise from critics here and in other cities.

She consulted many specialists, and finally underwent an operation. Then she found that the operation had not been successful. Finally her singing voice disappeared. Later her speaking voice was affected. Miss Pike's mother had a friend who is a Christian Scientist and Miss Pike was induced to try the treatment.

"When I got home after the first treatment my mother noticed an improvement," said she. "I've been improving ever since. I haven't taken a drop of medicine, not even a gargle, and my general health is a thousand times better. I'm going to keep it up. I think my voice will grow still better. I started in a scoffer, but now I'm a student of Christian Science. I want to be able to deal with my own 'claims.' I didn't have faith at first, but I have it now."

COW'S "MOO-OO"

Reverberated Through the Room After She Tried to Chew the Judge's Whiskers.

Elyria, Ohio, April 11.—The old cow blinked at the court and the lawyers, nodded her head and whisked her tail as if impatient to get back to her stable. She could not figure out why she had been brought into court.

"M-oo-o-oo," she bellowed. Then she tried to explain in cow language that it did not make any difference to her whether she had been willed to the widow of John Kelly or whether Arthur Jackson owned her. To add force to her argument she tried to chew the Court's whiskers.

The cow had been bought by Ella M. Shey from the widow of John Kelly. Jackson took her out of the Shay stable, claiming he owned her. The court today decided that Jackson should pay Mrs. Shay $30. The cow was brought into court as a part of the evidence.

TROUBLE AHEAD FOR FARMERS

Great Storms in April and May—Cloud Bursts, Frosts, Some Hail and Much Wind Predicted.

Washington, D. C., April 11.—Last bulletin gave forecasts of disturbance to cross continent April 18 to 22, warm wave 17 to 21 cool wave 20 to 24.

Next disturbance will reach Pacific coast about 17, cross west of Rockies by close of 18, great central valleys 19 to 21, eastern states 22.

Warm wave will cross west of Rockies about 17, great central valleys 19, eastern states 21.

Cold wave will cross west of Rockies about 20, great central valleys 22, eastern states 24.

This disturbance will come in a period of very cold weather, the warm wave will not elevate temperatures very much, storms will be unusually seevere with great probability of tornadoes during the week of which April 20 will be the central day.

Very cold weather will preceed this disturbance, not so cold following it and the latter cold wave will be of short duration. A great high temperature wave will come with next disturbance and the period of dangerous storms will continue.

Not much rain till after April 25 except in small sections in the nature of cloudbursts. Some hail may be expected in a few places but not extending to much territory.

Vegetation makes its finest growths when the magnetic forces are most active and therefore I expect the last half of April to be good crop weather where the storms do not damage the crops. It will be particularly favorable to the rice crops and, where not too dry, to other southern crops. Storms will do most damage in midlatitude states.

The great storms will continue through May. I have repeatedly warned my readers that April and May, 1905, will bring the most destructive storms of the year. These two months are usually the most quiet of the year, and, therefore, if they should prove to be the great storm months of 1905, that will be good evidence in favor of planetary meteorology.

CLOSE FIGHT FOR HERRICK

Strong Sentiment Against His Renomination. Every County Contains Staunch Republicans Who Will Oppose the Governor This Fall.

Cincinnati, Ohio, April 11.—Regarding the anti-Herrick feeling a Columbus dispatch to the Commercial Tribune (Republican) says,

Six out of every ten Republican politicians who visit the state capital say that the sentiment in their districts is such as to indicate that Gov. Herrick will have a close call for renomination, if, indeed, he does not suffer defeat at the hands of the Democrats this year.

The activity of the church people, whose open hostility followed the amendment of the Brannock law, is given as the cause for the alarm, which has assumed astonishing proportions.

Every congressional district in the state is reticulated with anti-Herrick sentiment. No county but counts stalwart Republicans openly in the ranks of the opposition to the governor.

The rapid fire of the anti-saloon guns is telling. Every local option election leaves sores which will not heal and opens gaps in the party ranks which bid the Democrats to act wisely.

This situation is more than pleasing for the Foraker followers. They revel in delight at the predicament of the man who has attempted to drive the senior Ohio senator into innocuous desuetude, to borrow from the language of Grover Cleveland.

NAN PATTERSON'S CASE IS CONTINUED ONE WEEK

Prosecution Applied for Delay of Trial—Was Strongly Opposed—Fifty-Seven Absent Talesmen Fined $100 Each for Failure to Report.

New York, April 11.—The trial of Nan Patterson on the charge of killing Caesar Young, which was to have begun before Recorder Goff in the court of general assembly yesterday, was postponed for one week upon the request of the prosecution.

The postponement was granted on account of the fight against extradition being made by J. Morgan Smith and his wife, who are now under arrest in Cincinnati, charged with conspiracy with Nan Patterson in connection with the Young case. The Smiths are wanted here particularly to be witnesses at the murder trial.

The motion for a delay was strongly opposed by Abraham Levy, chief counsel for the defendant. In granting the postponement, Recorder Goff said he did not think that the interests of the defendant or of public justice would be interfered with because of a week's delay.

Miss Patterson was not taken to court yesterday. Her father was present during the arguments, however, as also was John D. Melling, Caesar Young's racing partner, one of the principal witness for the prosecution.

A special panel of two hundred jurors has been summoned in the case, but only 143 of the talesmen answered the roll call. By direction of the recorder each of the 57 absentees was fined $100.

SIX OUT FOR NOMINATION

Republican Senatorial Convention in Thirty-Third District Will Meet in Deshler Soon.

Columbus Grove, April 11.—The Republican convention of the Thirty-third senatorial district, including the counties of Wood, Henry, Hancock, Fulton and Putnam, will be held in Deshler, probably the last week in April or early in May.

A candidate to succeed Senator Calvin P. Godfrey of Putnam county will be nominated. Thus far six candidates have avowed their intention of entering the race. They are ex-Representatives S. R. Painter, of Wood county; Attorneys E. L. E. Mumma and Charles V. Bish, of Hancock county and Clarence J. Prentice, of Henry county. Attorney J. J. Cole, of Hancock county, brother to Congressman Ralph D. Cole, of the Eighth district, is one of the strong candidates.

2,580 DEATHS IN EPIDEMIC

New York Had Over Half the Cases of Spotted Fever in 1904.

Washington, April 11.—On account of the recent occurrence of cases of cerebro meningitis commonly known as "spotted fever," in various parts of the country, the public health and marine hospital service, of which Surgeon General Walter Wyman is chief, has compiled a special report on the prevalence of this disease. New York state, during the calendar year 1904, had 1,700 fatal cases of "spotted fever." In New York City during January of this year, there were 130 deaths and during February, 186.

CARD OF BOWLING GREEN ELK USED BY SWINDLER IN EAST

Bowling Green, Ohio, April 11.—A man giving his name as James R. Hamilton, of California, is under arrest at Ossining, N. Y., after a season of activity which caused the greatest inconvenience in the Elks lodge here. This man is alleged to have stolen a membership card belonging to Frank Lawler, of this city, while Mr. Lawler was traveling in Canada. It is asserted that he went from city to city getting money by using the card. The Elks lodge has received letters innumerable from Elk lodges and Elk members telling of distressed Brother Lawler, who was assisted on his way by a donation or loan, and the real Lawler was in this city all the while. The grand lodge was notified and issued a bulletin covering the case. The man stepped into a store in Ossining, N. Y., a few days ago and, presenting his card, made application of an Elk in the store for aid, but was seized and held until the police arrived. Attorney T. F. Conley, of this city, has gone east to look after the matter for the Elks.

Newark, N. J., April 11.—Young ministers were cautioned by Bishop Joseph F. Berry, of Buffalo, in the Newark conference of the Methodist church today to talk sparingly of woman and to make their pastoral calls in the evening when the wife was surrounded by her husband and children. The bishop declared that the afternoon calls on women of the congregation, when they were likely to be alone, should be frowned upon. He declared that the confidence placed in ministers admitted them homes of the best families in the land and that anyone who violated this confidence or betrayed it in any way was not a minister but a scoundrel.

PRAYING CONSTANTLY.

Chicago, April 11.—Edward Conway, who declared that years ago he burned the Gould planing mill in London, Ohio, and that a man was killed in the fire, will be examined by experts to determine whether or not he is insane. While the fire occurred, as he says, it is not known that any one was killed in the blaze. Conway has been praying constantly for his supposed victim.

"Little Cold." Thousands of lives sacrificed every year. Dr. Wood's Norway Pine Syrup cures little colds, cures big colds too, down to the very verge of consumption.

FARMERS TOO HASTY.

Bucyrus, Ohio, April 11.—The cold weather of the past few days has destroyed most of the oats that had been sown and nearly all the clover. Only the seed that had been drilled in has escaped the frost. The mercury registered 18 for two successive nights, and the ground was frozen to a depth of several inches. The acreage will be resown.

BIG WELLS IN THE TERRITORY

Four Thousand Drilled There and in Kansas Since First of January 1904.

Nothing Doing in Latter State Now—Operator in Eastern Field Has More "Sand" Than His Western Brother.

At the close of March there were 5,567 wells producing in the Kansas and Indian Territory fields. At the beginning of the year 1904, there were only 1,590 producing wells in both sections.

George A. Whitney, who has been called home from the Kansas field because of the serious illness of his father, who resides at Genoa, was in the city yesterday. He says that they are getting some big wells in the Territory. But in Kansas every thing is very quiet just now There is practically nothing doing there.

In January, 1904, the two fields produced 251,462 barrels for Kansas, and 30 346 barrels for the Territory. This in the aggregate makes 282,301 barrels.

In December of the same year the yield of Kansas had reached the sum of 415,146 barrels, and the Territory 335,924, a total of 751,146 barrels. This may be termed a rapid rise There was still a further increase in the month of January. But in the Kansas field there has been a decline since that time owing to the peculiar antics of the producing elements and hostility of the Standard Oil company.

Possibilities Dark.

The possibilities of the region are as deeply dyed in darkness as they have ever been. Nobody can guess the outcome. There might occur one of those slumps that all fields have experienced, even in times of greatest excitements and of activity in the producing fields.

The Uncle Sam Oil company at Cherry Vale has commenced to lay lines to the tanks or producers in the field close by, and expects to have its refinery in full operation in less than a month from this date Uncle Sam sells its stock at 4 cents a share, but it has a capitalization of $10,000,000 If the company had to pay a dollar a thousand tax, as such organizations here have to do, it might find it difficult to meet the requirements after defraying its other expenses.

Southeastern Ohio.

How the operators of the Southeastern fields calculate to coin dollars by drilling wells that result as those that were completed there last month is a query for the occult adept to decide. In the Macksburg field 27 wells were finished, the aggregate yield of which was 62 barrels. Of the 27 only 15 were dry.

In the Marrietta field 59 wells were completed, with a production of 214 barrels. The Macksburg average was 2-29 and that of the Marrietta field 3-45 barrels to the well. That is an interesting story. As compared with Kansas or the Territory, it looks like 29 cents. Yet, in the entire eastern fields there were completed 480 of such wells during the month. The eastern operator has more sand than the average person. He must also have some capital. The question arises, how does he get it from such sources?

It has been a wonder to the eastern trade just how it came about that larger cuts were not made in the price of Kansas oil than in the eastern article, while the production so largely increased in that quarter.

The answer is given in the statement that the Standard is compelled to have a large supply of cheap oil in order to meet competition abroad. By maintaining the price fairly, the drill will be kept busy there and the quantity will be at hand at any time to send abroad. The markets of the old world are suffering from an oversupply of low-grade oils from Russia, Roumania and elsewhere.

The Standard Oil company is substituting its two-inch with a four-inch line to the Ragland, Ky, field. There is a weekly production there of about 4,000 barrels. It is a shallow sand section. The wells are only 350 feet

ACID THOUGHT TO BE HARMLESS,

Explodes With Terrific Effect—Important Discovery By Dr. Friedberg.

New York, April 11—It is believed bp scientists that a high explosive of even greater strength than nitro-glycerine or nitro-chloride has been discovered by Dr. Ludwig H. Friedberg, of the chemistry department of the College of the City of New York.

The discovery is the result of an explosion which occurred yesterday while Dr Friedberg was experimenting in the laboratory of the college with a substance called by chemists nitro-cinnamic acid which is used in the manufacture of indigo and heretofore has been considered by the scientific world a most harmless liquid

In the explosion Dr Friedberg was injured by the particles of flying glass some of which lodged in his face, and another wedged itself in the right arm, causing such a cut that is necessary to take three stitches in the arm.

As only three grains of nitro-cinnamic acid was used in the experiment the fact that it gave such force to the flying glass shows the wonderful strength of the substance.

After Dr. Friedberg found he was not seriously hurt he set about studying the cause of the explosion, and is now positive he is on the track of a high explosion that may in time rival nitro-glycerine and nitro-chloride.

The importance of the discovery lies in the fact that the high explosives are rare and chemists have for a long time sought to find others besides those already discovered

BIG CONTEST IN THE FOURTH DISTRICT

Plenty of Candidates Who Want Garber's Place—Several Candidates After Democratic Nomination for the Bench.

Democratic politics in northwestern Ohio is taking on a lively appearance, and through the judicial fight for the circuit bench will be decided who will succeed Congressman Harvey C. Garber in the Fourth district next year By the death of the late Judge William R. Mooney, of St. Marys, a vacancy was created on the circuit bench, which was filled temporarily by the appointment of Judge Vollrath, of Bucyrus by Governor Herrick. There are sixteen counties in the district, and W. Harry Kinder, of Hancock county, the nominee of last year, defeated by Judge Silas E. Huron, Republican, of the same county, is already announced for a renomination. He thinks he is entitled to it because the unexpected happened in a normally 7,000 Democratic district. Against him are announced Judge William H. Cunningham, of Allen county; Judge Hubbard, of Defiance; Judge Donnelly, of Napoleon, William H. Kincaid, of Union, a candidate of last year against Kinder, while other counties are yet to hear from. For congress, Allen, Mercer, and Auglaize counties have already lauched candidates. Attorney Jacob C. Ridenour will probably get Allen's vote; J. H. Goeke will have Auglaize and part of Darke and Shelby, and ex-State Senator J. D. Johnson, of Mercer, will have his own county solid, which means another bitter struggle similar to the Garber-Adkins-Loree fights when over $1,500 ballots were taken, and three cities used as convention places. Congressman Garber is said to be backed by Goeke, while Ridenour is expected to have some support in Darke and Shelby, which, with Allen's big apportionment will probably make him a formidable candidate.

PAY PREMIUM ON THE CRUDE

STANDARD OIL BEGINS BITTER WAR AGAINST INDEPENDENT PLANT AT FINDLAY.

Refined Product Reduced in Price—Findlay Folk Look for an Old Time Struggle— And Possibly Free Kerosene.

Findlay, April 11.—What promises to be a most bitter fight has been started by the Standard Oil against Cleveland, for the control of the crude oil supply from Hancock county field and the trade of local merchants in refined oil and other products of petroleum.

Tomorrow the Standard will give here a six-cent premium on crude oil, which will bring the price up to 92 cents, or one cent better than the north Lima, prices. At the same time the price of refined oil will be reduced one cent a gallon.

The Manhattan Oil company, a concern that was absorbed by the Standard years ago, will serve as the cats-paw, while the Standard, as far as is known, will not take a direct part in the affair.

Oil men look forward to a struggle between the two concerns similar to fights in the past, when the price of refined was decreased to a very low figure and the oil finally given away.

Since the National plant increased its capacity from 500 to 1,200 barels a day local operators have been turning over their production to the independents at a rate that promises to exclude all production of the independents from the Standard in Hancock county.

IN THE WILDERNESS.

President Roosevelt has completed his swing around the half circle and at this hour is in the wilds of Indian Territory hunting for game...His trip through the Southeast was a continuous ovation. People in all walks of life thronged to see him, and gave a welcome with a cordiality that is typical of the South. There was no personal vanity in his acceptance of this welcome. If it was not all a tribute to the exalted office, he felt it was because he had succeeded in convincing his political opponents that he cherished no ill-will and that, in his official duties, he recognized no party lines.

From Louisville, where he made his first speech in the South, to Ft Worth, where he practically completed his speaking tour, it was the same story of unbounded enthusiasm and undisguised admiration. If any present still held to the opinion that the President was an enemy to the South the unanimity with which his statements were received, the earnestness with which he promulgated his faith in a united people, must have convinced them that they had little following.

A feature of most of these demonstrations was the mingling of the blue and the gray. Veterans who fought with Stonewall Jackson and Albert Sidney Johnson marched side by side with those who fought under the Stars and Stripes. The process of reconciliation has been a slow one—so slow that at times it seemed almost useless to hope for it—but it is today complete and no man in the country is prouder of the fact than is President Roosevelt.

The communion with nature is begun under most auspicious circumstances. The President would be inhuman, if he did not feel a pride in the hospitable manner with which the Southern people received him and it must therefore be with buoyant spirits that he lays aside the cares of state and takes up the excitement of the chase. The hope of a great nation will follow him into the wilderness—a hope that he may find rest from the turmoil of public life and return to Washington strengthened of body and reinvigorated of mind.

"Why, $8 a week isn't even pin money!" cried a New York woman to the judge who had granted her a divorce. "Why, my alimony will not pay for my violets!

"How am I expected to even begin to live on $8 a week?" she asked. "It's fortunate for me that I have a father living. If I hadn't, I'm sure I don't know what I would do. Can a woman maintain a decent apartment and eat decent meals and pay a maid's wages on $8 a week? Everybody knows that she can't"

There is a strong touch of the ludicrous in the poor woman's joy that her father is living to support her. Perhaps that is all she considers any man good for.

It is really fortunate for her that she has a father living? It's doubtful. She will very likely go on making a fool of herself as long as anybody pays her bills.

What she needs is some effective teaching in the value of money. She appeared in the court room wearing a huge bouquet of violets that scented the whole building. She needs to learn that a woman should do something more than be a boquet holder.

Labor is no curse. It is wise old nature's method of making use of us to the world and saving us from being intolerable nuisances to ourselves If money were not hard to get none of us would ever have solved the problem of living on $8 a week

Violets are sweet, but there are many far more important things in the world than violets. Not all the perfume of life should be in the nostrils We truly possess it only when it is the soul. And it is the soul only when we have earned it.

The woman who does not know it is possible to live on $8 a week doesn't know what living is. Far more half the women of this country live on less than that and live happily and usefully.

The humble wives and mothers of the world do not need violets at their breasts to put perfume into millions of lives

Spotted fever, or spinal meningitis, as it best known has broke out in a number of sections of this country, as well as in Europe, and it has proved fatal in many cases, a large per cent of them in fact. Medical science is coming rapidly into play, however, and it is though a sure and speedy cure will soon be at hand. The disease is said not to be contagious but highly infectious.

A Boston paper has a symposium of views of the question of whether Lynn, Mass is the most wicked city in the country. It is unfair of Boston to thus trump up a case against poor little Lynn The world has Bishop McMillan's word for it that Boston is the orneriest city in the world and is willing to consider the incident closed.

A sun-crazed poet wants to know "Who can undo what time hath done beckon lost music from the broken lute or dig the sunset from the sunken sea?" Really the question is beyond us Our candid opinion is that here and there some one can be found who can undo what time hath done It is possible, too, that if the broken lute is taken to a repair shop the leader of the town band might be able to beckon some music out of it But when it comes to digging the sunset out of the sunken sea, we wouldn't blame anyone for refusing the job Digging the Panama canal is going to be a hard piece of work, but it appears to us as child's play compared with this other task. In the first place, it is awful hard to make headway at digging in water; and then again we doubt whether the digger would find the sunset in the sea, no matter how deep he might dig However, the poet shows a laudable ambition is seeking this information

IS INSTANTLY KILLED.

And Nearly Every Bone In His Body Was Broken.

SAMUEL CHAMBERS, A RETIRED FARMER, MEETS AN AWFUL FATE THIS MORNING.

RUN DOWN BY A PENNSYLVANIA PASSENGER TRAIN JUST WEST OF THE CITY—THE ACCIDENT

HAPPENED WITHIN A SHORT DISTANCE OF THE HOME OF HIS DAUGHTER, MRS. CATHERINE SMITH.

Samuel Chambers, one of the oldest residents of Allen county, a retired farmer, who for some time has made his home with his daughter, Mrs. Catharine Smith, who lives near Allentown, met with an untimely end about nine o'clock this morning.

Deceased came to this city early in the morning and boarded the 8 o'clock car on the Lima, Van Wert, Ft Wayne traction line for home. He got off at the cross road just west of the Eastown road and in crossing the Pittsburg, Fort Wayne and Chicago railroad tracks, failed to notice passenger train No. 18, approaching from the west and stepped immediately in front of it and was hurled into eternity, nearly every bone in his body being broken, including his back and neck. The train was stopped, but when the crew reached the scene of fatality relatives of the deceased had arrived and the body was not disturbed. A switching crew accompanied by Coroner Bice, returned later and after viewing the remains the body was taken to the Bennet morgue and prepared for burial.

Deceased was eighty-six years of age, and until a few years since, owned a farm about three miles east of Lima. This he disposed of and invested in Lima property. Since retiring he has lived with his daughter as above stated. Besides the daughter mentioned he leaves two sons, Eli, of Van Wert; George, of Harrod, Mrs. Michael Alistetter, of Maryland; Mrs. Al. Driver, of 1165 west High street. The remains will be taken to the Driver home and the funeral will be held Friday morning, leaving the residence at nine o'clock, from the Sugar Creek church and the burial will be in the Sugar Creek cemetery. Rev. Driver will preach the funeral sermon.

FROM

Date of Their Marriage Husband

Commenced Abusing Mrs. Ada Pearl Crider.

NOW SHE APPEALS TO THE COURT FOR A SEPARATION.

Cursed Her When Their First Child Was Born, Choked Her When the Second Came.—Tale of Horror Related in a Divorce Petition.

At a late hour yesterday afternoon a petition for divorce was filed by attorneys representing Mrs. Pearl Crider, and according to the allegations set forth, the unnatural husband if guilty, should be given the limit of the law and then some.

Plaintiff is Ada Pearl Crider, who was married June 16, 1900, to Owen Monroe Crider. Three children were born to this union and if the wife's story is true her married life has been one of awful suspense and suffering. Her husband commenced abusing her immediately after their marriage. When their first child was born he cursed her. When the second came he choked her and called her vile names. When the third arrived he refused to provide for it and beat his invalid wife with the utmost ferocity, according to the allegations of the petition. Plaintiff claims she was able to nurse the last child until her husband's abuse sickened her. Then she asked him repeatedly to secure a nursing bottle for the infant, which he refused and neglected to do. He told her he hated her and did not want her to live with him and emphasized his remarks with blows and strangling her, until she was driven to seek shelter with her mother, where she took her children.

Defendant ist said to be able-bodied and capable of earning a living but took from his suffering wife all the money she managed to earn by teaching music. She demands a divorce, the custody of the children and a suitable alimony.

IT IS UP TO THE SCHOOL BOARD

Says Health Officer Jones Relative to the Compulsory Vaccination Order

HEALTH OFFICER JONES WAS INTERVIEWED THIS AFTERNOON RELATIVE TO THE COMPULSORY VACCINATION, AND SAID THE HEALTH BOARD WOULD HAVE NOTHING TO DO WITH RESCINDING THE ORDER. THAT IT WAS UP TO THE SCHOOL BOARD TO DO THIS. SAID CONDITIONS WERE NOW VERY FAVORABLE, THAT THERE WERE BUT ABOUT TEN HOUSES IN THE CITY UNDER QUARANTINE AT THE PRESENT TIME AND THAT IN TWO WEEKS THEY HOPED TO HAVE SMALL POX WIPED OUT ENTIRELY. HE STATED FURTHER THAT THE HEALTH BOARD WOULD IN NO WAY INTERFERE WITH ANY ACTION TAKEN BY THE BOARD OF EDUCATION RELATIVE TO PERMITTING SCHOOL CHILDREN NOT VACCINATED TO RESUME THEIR SCHOOL DUTIES.

IS HELD ON HEAVY BAIL

Alleged Rapist Bound Over to the Grand Jury This Morning

Story of the Girl Related in the Presence of Mayor Robb

J. H. Buckles, the alleged rapist, arrested Saturday night on complaint of the father of fourteen year old Josephine Ribley, of north McDonald street, an affidavit alleging rape being filed against him was given a hearing in Mayor Robb's court this morning. The girl's story was related in the presence of His Honor and was sufficient to convince the Mayor that the prisoner should be bound over to the Grand Jury, and he so announced his decision, placing Buckle's bond at $1,000. This amount the prisoner thus far has been unable to raise and is held a prisoner in the county jail. Attorney Eastman is defending the young man.

WINONA LAKE SEASON.

Will Be Particularly Attractive For an Outing.

The summer of 1905 is to be an especially attractive season at Winona Lake, the beautiful resort of Northern Indiana on the Pennsylvania lines. The Presbyterian General Assembly will convene there May 18th. Noted speakers and musicians have been engaged for the summer entertainments. There will be conventions and social and religious conferences from May until September. The literary presentation will be prominent. In brief, it will be a most profitable season educationally. Teachers and students who attend the Summer School will derive much benefit.

Winona Lake has golf links, tennis courts, baseball and cricket grounds, boating, fishing, swimming and camping facilities. The Pennsylvania lines run direct to the park entrance. Season and fifteen-day excursion tickets may be obtained from ticket agents on the Pennsylvania lines. Information about Winona Lake, the season's program, hotel accommodations etc., can be ascertained from S. C. Dickey, Secretary and General Manager, Winona Lake, Ind.

DELIGHTFUL

SURPRISE LAST EVENING IN HONOR OF W. R. BOYSELL —BIRTHDAY CELEBRATION.

A complete surprise was given in honor of W. R. Boysell's twenty-seventh birthday at his home on Pierce street last night. A rap at the door announced the arrival of a crowd of disguises. They were there from all nations and to guess the right one at the right place was a long and tedious undertaking. One by one their natural faces appeared, and the jolly crowd passed the time till the midnight hour in playing games, speaking pieces and swinging on the corner. In keeping time to the music. Last, but not least, the taffy made by L. J. Deikman was glorious to behold, pull and eat. Some handsome and useful presents were presented Mr. Boysell and were greatfuly received. At parting all wished Mr. Boysell many more such happy occasions.

Those present were Mr. and Mrs. Stilson, Mr. and Mrs. J. Nicholas, Mr. and Mrs. H. Risser, Mr. and Mrs. William Dobbins, Mrs. George Enslen, Mr. and Mrs. L. J. Deikman, Mrs. Ella Miller, Mr. and Mrs. Wm. McClintock, Miss Anna Sereff, Miss Emma Maug, Miss Hellen McClintock, Messrs. Harold Dobbins, Erwin Enslen, Arnold McClintock, Donald McClintock, Carrol Risser, George Nicholas, Harold Stilson, Robert Deikman.

ORDER

Keeping School Children From

School on Account of the Compulsory

VACCINATION IS RESCINDED BY SCHOOL BOARD.

THE HEALTH BOARD IS ASKED TO TAKE SIMILAR ACTION —INTERESTING MEETING OF SCHOOL BOARD LAST NIGHT.

At the meeting of the Board of Education last night the compulsory vaccination order was up for consideration.

As will be remembered during the smallpox quarantine, all children were required to be vaccinated and those not provided with a certificate were refused admission to the schools.

The small pox situation now being well in hand, a motion was last night carried requesting the Board of health to rescind the compulsory vaccination order.

The motion by Mr. Churchill raised the questions to which board had jurisdiction. Mr. Stolzenbach maintained that it was up to the board of education as the health authorities had merely requested that compulsory vaccination be made the slogan. An order was produced and read from the health board directing the superintendent to admit no pupils unless they present a certificate of vaccination. This seemed conclusive and the health anthoities will be asked to do all possible for those who are now restrained from attending the public schools. A special meeting will likely be urged on the health board to expediate the annulment of the old order.

An open house day was decided on when tax payers and all others interested will be invited to visit the high school.

On recommendation of Superintendent Miller, May 6th was selected as the date for this auspicious and pleasurable affair. May 6, falls on Thursday and all afternoon the building will be open to visitors. E. A. Jones, state commissioner of schools will be present and is on the program for an address. It is hoped to have Architect Packard, of Columbus present, who will formally turn over the building to the board of education, which will be accepted in a speech by President Pence. The halls and corridors will be graced with the educational exhibits which it is planned to have ready and which the patrons of the schools may inspect as they take in the beauties of the structure. In the evening a special program will be given by the high school. The arrangements are complete for an interesting afternoon and evening and the board heartily seconded Mr. Miller's anxiety to make this a day to be remembered in the history of Lima schools.

The coming of Treasurer Stolzenbach into his rights was celebrated by the payment of $4452.97 worth of bills, the bill of Hoover & Co., of $192.70 for window shades being held up. This grist included the expense of furnishing the board room and that of superintendent which amounted to $847.73, a modest sum when the quality and completeness of the equipment is considered.

The blackboards are not satisfactory and such fact will be communicated to the firm which had the contract for furnishing them. When they arrived Mr. Sherrick was employed to face the edges and place them on the walls. However, there are many flaws yet discernable, due to the imperfect work of the makers and these defects must be remedied before the board will settle.

Val Heil, who has the contract for razing and removing the West building, asked for and was allowed thirty more days in which to complete the job. This will extend the contract to August 1. He will be requested to supply another name on his $5,000 bond before the board will pass upon it.

Superintendent Miller reported that some young lad about fifteen years of age was defiling the new high school. He had been seen prowling about the building and was once observed trying the windows in an effort to gain admittance after dark. He had committed other offenses and the superintendent had notified the police in the hopes that the young man may be taught and punished. Aside from this there was little of importance in his report, although he advised the board not to buy seats for the auditorium, as this [illegible] would be required for the school in another year. He further suggested that a vote of thanks be extended by clerk Herret to the county commissioners for the use of the court house basement immediately after the abandonment of the West building. This suggestion was favorably acted on.

WHERE IS SHE?

Mr. Chas. Stolzenbach, Lima, O.

My dear Charley: I have a communication from the International Estate Adjustment company, asking if I can give them any information as to the whereabouts of Miss Retta Mohler, who originally came from your city, as they have an estate to adjust in which she has some interest.

This girl was in my family for two or three years as a servant, and a good, faithful girl at that, and if I could aid her in securing her rights in the estate, I would be glad to do so. We knew at the time she was in our employ that she originally came from Lima.

In the common cause of humanity, will you kindly make some inquiry in your city and ascertain if anything can be learned of her whereabouts. Thanking you in advance, I am.

Cordially yours,
A. B. CROSSMAN, President

Dr. Parkhurst says, "The Dunkard's path leads to the hearse and the grave." It must be a glorious path then, for Poet Gray told us, a long time ago, that "The path of glory leads but to the grave."

Surprised.

Last evening the friends of Mr. William Boysell gathered at his home and assisted in celebrating the twenty-seventh anniversary of his birth. Pedro and flinch were played and a very merry evening spent by Mr. and Mrs. James Nichols, Mr. and Mrs. Harry Stillson, Mr. and Mrs. George Enslen, Miss Sheriff, Mr. and Mrs. McClintock, Miss Ella Miller, Mr. and Mrs. William Dobbins, Mr. and Mrs. L. J. Deikman, Mr. and Mrs. Henry Reisser.

Queen at Home.

Miss Alice Roosevelt has been attracting much attention from a crowd of visitors at the White House on a whirl through the city to the races in the reddest kind of an auto. Snapshots are very much in demand just now, but the shooters are all circumvented when Miss Roosevelt emerged from the White House as the "Veiled Lady in Blue."

She had a half dozen or more of the younger set at lunch. Miss Boardman, Miss Elkins and the others came out, but when Miss Roosevelt emerged she was in blue from head to foot.

The merry party got into an auto which started at a good clip from the portico through the grounds. The merry party went to the races quicker than a flash.

At the race track Miss Roosevelt is much sought after and is always well attended. The White House parties on these days of the regency always go in for a good time and they get it.

Wedding Anniversary.

Mr. and Mrs. Thomas Hill, on Saturday celebrated their eighteenth wedding anniversary at their home on McPheron avenue. During the evening the following friends came with well filled baskets and made the hours pass very pleasantly away. Mr. and Mrs. L. J. Deekman, Mr. and Mrs. Fred Helwig, Mr. and Mrs. W. Baxter, Mr. and Mrs. E. Rasor, Miss Verbryke, Mr. and Mrs. Robert Camper, Mr. Walter Risser and Mr. and Mrs. Joseph Chamberlin.

Salads.

Do not prepare plain salads until wanted at the table. If prepared long before the lettuce withers and the dressing becomes watery.

There is an admirable Spanish proverb about dressing salads. It says it requires four persons to mix a salad. A spendthrift to throw in the oil, a miser to drop in the vinegar, a lawyer to add the seasoning and a madman to stir it together.

RUSSIAN SALAD—Cut up very small equal quantities of any cold vegetables, adding lettuce, endive and cress, if you have them; add any old flaked fish, mix all well in a bowl with mayonnaise sauce, turn into the dish in which it is to be served, and garnish with olives, filleted anchovies and lemon jelly.

SALAD IN JELLY—Fill a mould with a lemon or other gelatine jelly; when cold, cut out most of the center, leaving a shell of jelly, fill it with salad, and serve.

SALSIFY SALAD—Chop cold boiled salsify, and pour over it a French or mayonnaise dressing. Or (2) it can be combined with other cold boiled vegetables, such as cauliflower, carrots, beans or potatoes, and then the salad dressing added.

SPINACH SALAD—Take cold boiled spinach, mince fine, cover with a French salad dressing and garnish with sliced hard boiled eggs. It goes well with roast beef, mutton or game.

Slumber Party.

Misses Katherine and Ruby Ohler gave a most delightful slumber party Saturday evening at their home on west Market street. The guests were Miss Louise Holdridge, Miss Laura McLaughlin, Miss Ethel Argue, Miss Gladys Baxter, Miss Beatrice Campbell, Miss Marguerite Thompson, Miss Hazel Griffen, Miss Rose Agerter, Mrs. Francis Robinson, Miss Marguerite Mitchell, Miss Forest Ireland, Miss Lucille Albrecht and Miss Lucille Orchard.

Announcement has been made of the coming nuptials of two popular young people when early this summer Miss Luara Borges will become the bride of Mr. Carl Zeller. Miss Borges is the eldest daughter of Mr. and Mrs. F. G. Borges, of west Spring, and one of Lima's brightest and most attractive young women, while Mr. Zeller, now a member of the high school faculty of Youngstown, formerly held a similar position here as well as a popular place in Lima society.

HEADACHES CURED WITH GLASSES.

About 90 per cent of the cases of headache, vertigo, nervousness, cross eyes and many stomach disorders are traceable directly to defective eyes, which can be corrected with properly fitted glasses. I will examine your eyes by the most improved methods free of charge, accurately estimate your defect, take your order for glasses and have them made to suit your individual case.

If your headaches, your eyes water, burn, smart or blur, if your eyes feel sticky in the morning, if they hurt or ache after reading, if you feel like closing them to rest them, if strong light hurts your eyes. If you have any of these eye troubles, my examination will reveal the cause.

In rememberance of his fifth birthday. Harold Stilson, entertained five small boys in an enjoyable manner yesterday afternoon, between showers the little ones romped and played in the yard, but the patter of the rain wes never heard, while the boys played games and shouted with mirth and laughter in the house. They were happy at four when ice cream, cake, candy and fruit was served.

Harold was happiest of all when each one gave him a little remembrance and his mamma gave him a nice tricycle. Each boy carried home souvenirs of Easter Eggs and a Chicken. The little ones were: Geo Nicholas, Charles Boyer, Richard Moses, Paul Lawrence, Roger Gardner.

Why Buchanan Never Married.

"Mr. Buchanan, who was the first bachelor elected to the presidency, was 65 years of age when elected and had deliberately given himself to a life of celibacy," writes William Perrine in The Ladies' Home Journal.

"In the days when he was a young lawyer of Lancaster, Pa., he had loved Miss Coleman, a beautiful daughter of a citizen of that town. They had been engaged to be married, when one day he was surprised to receive from her a request to release her from the promise. According to Mr. George Ticknor Curtis, the separation originated in a misunderstanding on the part of the lady, who was unusually sensitive, over some small matter exaggerated by giddy and indiscreet tongues. Soon after the estrangement she was sent to Philadelphia and there died suddenly.

"Throughout the rest of his life, or for nearly half a century, Mr. Buchanan is not known to have revealed to anybody the circumstances of this romantic tragedy. He would only say that it had changed his hopes and plans and had led him more deeply than ever into politics as a distraction from his grief. In his old age, long after he had retired permanently to private life, he called attention to a package containing, he said, the papers and relics which would explain the causes of his youthful sorrow and which he preserved evidently with the idea of revealing them before his death. But when he died and his will was read it was found that he had directed that the package should be burned without being opened, and his injunction was obeyed."

Irish Lacemaking.

After the famine of 1847 lacemaking was revived in Ireland. Limerick, the most successful Irish lace, is not really a lace at all. It is tambour work upon net and muslin.

The Irish point, so called, is the ancient cut work, being made in quite the same way.

Net was first made by machinery in 1768. The machine was an adaptation of the stocking loom to lacemaking and was cumbrous and not very effective. In 1809 John Heathcote, a farmer's son, evolved from consciousness and experience the first machine to make true bobbinet with perfect six sided holes. It brought a great hue and cry about his ears from laceworkers, who fancied they saw themselves thus reduced to beggary.

The Luddites broke into the factory where the machines were first set up and made scrap iron and kindling wood of them. The only result was to drive the new manufacture to other and safer quarters. For long the secret of the machine's construction was most jealously guarded by English manufacturers. Not satisfied with letters patent they kept up a coast patrol to make sure that nobody took model or drawings to France.

At last, though, they were outwitted. A discharged workman who had the plan of it in his mind managed to get safe over sea and build a machine in France.

Sort of a Cannibal.

An old farmer for many years got his dinner on market days at a small hotel kept by a widow.

She had long suspected that he ate more than the price of it warranted, so she determined to test him. She accordingly arranged matters so that there was no room for him at table, but she took him into a private room the table of which was graced by a steaming leg of mutton. He set to in good earnest and soon nothing was left but the bones.

Highly delighted with his cheap feed on passing [illegible] he tendered 2 shillings [illegible] and a quart of ale.

The widow declined to take any payment on the ground of having inconvenienced him so much.

Chuckling to himself, the farmer lifted down his market basket from a hook, and, finding it rather light, he tore off the covering and shouted:

"Here, Mrs. Brown, where's my leg o' mutton?"

"Why, ye old silly," said the widow, "ye have ate your leg for your dinner!" —London Answers.

THIS is the day of the natural waisted woman. The **W. B. Erect Form** has changed the American figure. It has supplanted discomfort with ease—it has banished the impossible and exaggerated figure produced by the old corset idea. It removes the strain of lacing from the sensitive parts of the body and throws all pressure upon the hips and the strong back muscles, supporting the stomach within the corset and not forcing it below the garment. The Erect Form is made in more models than ever before. There are forty distinct styles of this popular make, each meant for a distinct type of woman. Dealers in all sized towns and cities the land over, sell the Erect Form. Prices range upward from $1.

Conversion Through Pork.

An old Cambridge friend of mine who had a good deal of the wisdom of the serpent in him had a farmer in his parish in Norfolk whom he could not get to church. Whenever he pressed upon him his neglect or his bad example he was always met with the same excuse, "You be too young and do not know enough to teach such as I." At last he gave up the farmer in despair. But one day he happened to pass by the farm while his parishioner was engaged in killing a fine pig. My friend said: "What a pig! Why, he weighs 34 stone!" "What dost thou know of pigs?" replied the farmer. "I only wish he weighed as much." When they next met, the farmer, to his surprise, told my friend that the pig had been found to weight just 34 stone. He added much to my friend's gratification, "And thou wilt see me at church next Sunday, parson."—Manchester Guardian.

What Are We Coming To?

The fond mother had just killed 10 of her 12 children.

She was a happy wife, and her husband came home early every night.

"Now," she said, with a contented sigh, "John can close with the agent for that house."

This was 20 years from now, when no landlord would accept a tenant with more than two children.—New York Sun.
